ASAP 3b draft 9-24-17 RA review-rdado.docx

Michelle/David –

Here is a set of revisions to the draft letter. I edited fairly heavily with the intent of 1) bringing forward and stating more positively our support for the air quality aspect of the project and 2) shortening the letter overall. I readily admit I may have gone overboard, so consider it as you will. (I consulted with Tim on the Fairbanks-related language.)
